HAZEM RADHOUANI | ARCHITECT

Architect specialising in heritage documentation and earthen architecture. hazemradhouani@gmail.com | linkedin.com/in/hazem-radhouani-b36616319/ | hazemradhouani.github.io/portfolio/

Architect graduated with Highest Honours (ENAU, 2026), drawn to the architecture of the existing: the inhabited, the deteriorated, the overlooked. My practice spans Paris, Casablanca, and Tokyo, cities where I have read how buildings hold memory, resist erasure, and remain rooted in place. I am determined to make heritage rehabilitation a speciality, and the breadth of my work reflects that commitment at every scale, from regional rail infrastructure in Morocco to residential rehabilitation in Paris and comparative heritage research in Japan.

EXPERIENCE

2025 - 2026

Studio BELEM | Paris

Architectural Intern

Residential, cultural, and rehabilitation projects from sketch to building permit. Full BIM production; coordination with structural and MEP consultants; French regulatory framework, PC, ABF prescriptions, listed monuments.

2025

Sakura Science Program | Japan

Saga University & Waseda University | Invited researcher | Sole Tunisian representative

Competitive international selection, Japanese government-funded. Intensive workshops on historic district rehabilitation and adaptive reuse. Comparative analysis: North African medinas and Japanese machiya, focused on spatial identity and heritage resilience. Most Appreciated Research.

2024 - 2025

Yassir Khalil Studio | Casablanca

Architectural Intern | Full time

Co-authored feasibility study and concept for a regional RER-type rail hub: urban integration, multimodal circulation, structural coordination. BIM deliverables in Revit; coordination with Moroccan municipal authorities and engineering offices.

2023

2ADP Salim Ben Rejeb Architectes | Tunis

Architectural Intern

Technical drawings and documentation for residential and civic projects (AutoCAD, ArchiCAD). Client presentation renders.

2020 - 2021

Société de Préservation du Village d'ARG | Tunisia

Intern & Volunteer

Field surveys and heritage assessment of an abandoned village, foundational documentation for the thesis (Highest Honours).
